A vintage television set with a light-colored wooden-grain cabinet. The screen displays a colorful, abstract image with vertical bands of yellow, cyan, green, magenta, red, and blue. The control panel on the right side features a circular dial with numbers 1 through 13, and four smaller knobs below it. The text "Continuous Partial Attention" is overlaid on the screen in white, bold, sans-serif font.

Continuous Partial Attention

“Trying to follow and deal with everything while, in fact, failing to focus on anything.” (Stone, 2006).

You Now Have a Shorter Attention Span Than a Goldfish

BY KEVIN MCSPADDEN 

MAY 14, 2015 5:09 AM EDT

The average attention span for the notoriously ill-focused goldfish is nine seconds, but according to a [new study](#) from Microsoft Corp., people now generally lose concentration after eight seconds, highlighting the affects of an increasingly digitalized lifestyle on the brain.

Researchers in Canada surveyed 2,000 participants and studied the brain activity of 112 others using electroencephalograms (EEGs). Microsoft found that since the year 2000 (or about when the mobile revolution began) the average attention span dropped from 12 seconds to eight seconds.

DIGITAL DISORDER

The circulation of misinformation, disinformation and “fake news”

DIGITAL DISCONNECTION

Digital disconnection refers to the inability or unwillingness to engage effectively or constructively with difference (Pegrum, 2019).

RELATEDNESS

The need to feel connected to others;
to feel cared for and to care for others.

Characteristics of relatedness support

- Opportunities for supporting others and being supported
- A sense of warmth/goodwill
- Chances to contribute
- Opportunities for gratitude/appreciation
- Support for empathy
- Saliency of social presence

RELATEDNESS

The need to feel connected to others; to feel cared for and to care for others.

Characteristics of relatedness support

- Opportunities for supporting others and being supported
- A sense of warmth/goodwill
- Chances to contribute
- Opportunities for gratitude/appreciation
- Support for empathy
- Saliency of social presence

RELATEDNESS FRUSTRATION

Signs and symptoms of relatedness frustration may include when a digital experience feels:

- Alienating
- Disconnecting
- Divisive
- Lonely
- Embarrassing/shaming
- Adversarial
- Uncomfortably competitive
- Disrupting of human interaction

The big questions

What do we use technology for?

To what end?

Does this align with our values?

How are we using, or could we use technology to foster wellbeing?

Educational

SUSTAINABILITY

communities that

- 1) actively reflect the values of the community they serve,
- 2) give primacy to the long-term wellbeing of their members and environment, and
- 3) are resilient in the face of change and resolute in their aspirations.

(Reinders, 2022)

What stays the same
when everything changes?

Your care.
